24-R025	Assad Rutherford	All Others	N/A	My name is Assad Rutherford. I am an artist, author, entrepreneur, husband, and father from Hammond, IN. I am an alumni of Indiana University, where I received a full ride scholarship to attend. I am confused as to why the military, boule, deep state police, and sheriff's department would "nominate" me as a targeted individual or non investigative subject in your database. They've been engaging in domestic terrorism, electronic radiofrequency harassment, bio/brain hacking, gangstalking, poisoning, bribery, and social engineering in the name of "national security" even though this behavior of our justice/defense department is as unpatriotic and treasonous as it gets. I have no criminal record or mental illness, albeit their goal was to formulate a false narrative regarding my life and my family in trying to fabricate a record. Meritorious manumission should be ruled out in masonic and cabbalistic circles and groups, especially if it leads to this dark cloud being over our justice/defense personnel. I have recorded drone camera footage for months of the army, navy, and air force puppets that triangulate microwave radiation into my home, affecting me and my family. I have an application that I use to monitor these frequencies and how they triangulate them and I record them as they move around the neighborhood to attempt to increase the intensity of the radiation. I was notified that I was on a "poverty list" at the chamber of commerce as well. This was the result of torts filed to the courts however they still have not removed me from the NIS watchlist, despite me being a model citizen. I am not a "bright light" (homcide or suicide) narrative and this request is being documented with several attorneys to ensure you all do your job in defending my rights to speech, privacy, thought, and due process. We have started multiple petitions and are working to introduce a "No criminal record, no surveillance" bill as well as an "Intellectual Property Insurance" bill so that congress can focus on filling what has become a big void in our federally government's oath to protect and serve. Until then, they are the actual criminals and terrorists. Since I have no criminal record in the system, it is illegal and treasonous to withhold any information regarding the use of my name or social security number in any government agency. They have destroyed many families with this technology so I host spaces on x.com where they can tell their story and share similar experiences of being illegally surveilled. This is crippling our country and I will send a copy of this request to every agency and every lawyer in the state of Indiana to ensure me and other "military experiment labrats" (who are really soldiers of christ) get justice. They have passed every deadline they originally set to close this case or stop harassing, indicating that they are on a complete joyride with this technology. We've seen the military psychological operations manual as well as their commercial for their strategy to bring our own country under seige. The good people of America including myself will not tolerate this any longer and if my name is not completely removed from all targeting and poverty databases and watchlists, it will backfire against those responsible because we are still a nation under God, and God will not tolerate these rights violations either. All of the lawyers and petitioners who will have a copy of this request would appreciate a swift response and resolution, along with restitution and compensation for my neurons and blood being linked to a DNA hard drive that can be accessed in several states. It is policy to remove me from such lists since I have no criminal record and NEVER will. Please also provide the names of all government and military personnel who have knowledge of my name being on this list, or the lawyers will demand the information through the courts.	1/15/24

24-R041	(b)(6)	All Others	N/A	I am a contractor for the company (b)(6). My company's FSO has informed me that they saw the USCC has denied my security clearance request. I'm not quite sure if this means my security clearance itself has been denied, or if my access to the building has been denied. However, I'm requesting any information regarding this denial, especially if it is my security clearance itself, so that I may begin the appeal process that I've heard about. I need to know exactly what was denied and for what reasons, as well as how to appeal or whom to contact to appeal. I have yet to receive any information in the mail as I've been told is required, so as to allow me ample time to respond. Respectfully, thank you.	2/1/24

24-R044	Malcolm Byrne	Media	The National Security Archive	An intelligence analysis (and related documents) produced sometime in 2023 that describe Russian government-run influence operations, including attempts to use nominally independent organizations to "launder" Kremlin activities aimed at manipulating public opinion in the United States. This request covers a specific document that was discussed at length in a New York Times article on August 25, 2023, by Julian E. Barnes. The article notes repeatedly that the document was recently declassified and at one point indicates it was initially released on the date the piece appeared in print (Aug 25). The document in question focuses on Russian intelligence services, particularly the Federal Security Service (FSB), and its secret use of groups such as Public Initiative Creative Diplomacy (PICREADI) (or just Creative Diplomacy) to recruit U.S. citizens to participate in Kremlin-approved activities. According to the Times article, the declassified analysis also singles out several individuals: Natalia Burlinova; Andrey Stepanenko;; Maksim Grigoryev; and Anton Tsvetkov. The FBI had previously put out a Wanted notice for Ms. Burlinova on or about April 17, 2023 (still posted on the DOJ web site). I include the above details in hopes that they will facilitate the search for this and any related records (such as talking points) that were intended to be declassified at the same time.	2/21/24

24-R060	Callahan Shelley	Education	University of Heidelberg	Dear Ms. Carmen A. Collins, If possible, I hope to request information under the Freedom of Information Act. I am a student conducting research on US public-private partnerships and the use of IT companies to achieve US foreign policy goals in wartime and peacetime. My research is looking at the ties that the public sector has to US private sector defense of its allies - specifically Ukraine. I apologize in advance for my lack of knowledge surrounding FOIA requests or the specificities of this request. I have found it rather challenging to assess the proximity that the public sector has to the private sector in the defense of Ukraine and would therefore like to request any documentation related to CYBERCOM's contracts with the following companies, in relation to their work and CYBERCOM-assigned tasks, if any, specifically in the defense of Ukraine/Ukrainian IT systems since the 2022 invasion of Ukraine by Russia. The companies I would like to have information regarding delegated tasks are: Amazon AWS, Cloudflare, Google, Microsoft, and Cisco. I have found public information on contracts awarded by CYBERCOM themselves, but specific delegated tasks are hard to come by from what I have found so far. In order to help to determine my status to assess fees, you should know that I am an American student, currently studying at the University of Heidelberg (Germany), and this request is made for a scholarly purpose and not for commercial use. I am willing to pay fees for this request up to a maximum of \$50. If you estimate that the fees will exceed this limit, please inform me first. I understand that this request may be too "broad" to help, that there may actually be no documentation regarding this, or even that information may be confidential and therefore assistance is not possible. In any case, I would like to thank you for your consideration of this request. Take care, Callahan Shelley	4/19/24

So historically we had protections at the perimeter; we had protections at the local user's desktop station; we had firewalls that existed in the various parts of our infrastructure, and they didn't really talk to each other very much. That's the difference. Now they're starting to talk to each other. They're providing common data sets that allow us to say, 'If I'm seeing something over here, and it seems to be hitting this endpoint'...That's the approach that we're taking, is establishing ... a data lake architecture with a federated search capability, and then modernizing the tools at various stages."" This lake architecture he speaks of, what is it? what domestic dataset goes in it? what domestic data is collected? what datasets go in it? who maintains the project? is palantir involved? how is this constitutional? what is the source of the domestic data for such lake? do you know the definition of fascism as defined by mussolini, a fascist? did you know aside from being Muscogee and Cherokee the rest of my fam came here in 1721 and fought in the revolution, civil war, alamo, texas rangers, you name it. The data collection matches xkeyscore also so I imagine the db goes into the data lake I previously requested all domestic collection data that could be construed as conflicting with 1a and 4a. 25-R009	Irvin McCullough	Media	Government Accountability Project	<p>From June 1, 2023 through January 1, 2024, I request a sample of up to 10 completed FOIA case files from your office's FOIA tracking system where scope clarification occurred. Each case must have all of: (1) a written agency response seeking clarification about the scope of records sought; (2) a written requester response that clarified the request; (3) a final determination letter; and (4) a case closure date within the specified date range. For each of these case files, I seek only: (1) the initial FOIA request; (2) the agency's scope clarification letter (or email or similar record); (3) the requester's clarification response or the request as it was ultimately processed; (4) and the final determination letter. Specifically, for a sample of requests where clarification was needed, I'm looking for the original request, the rationale for clarification, and the clarified request. I am studying how agencies and requesters work together to clarify and refine requests, so I need only the substance of these communications, not any personally identifying details. To reduce processing time and protect privacy: please exclude any Privacy Act requests, cases where clarification was sought solely about fees, and cases where the requester never responded with clarification. And please redact all personal information (names, addresses, emails, phone numbers). If your office cannot find 10 completed case files with these criteria, please send as many case files as you can find that do.</p>	11/25/24
